Multiplier Events YouthImpact+

YouthImpact+ is excited to announce the launch of our new digital tool for impact measurement in youth work. To celebrate, we're hosting a series of events in the UK, Bulgaria, Romania, Greece, Italy, Turkey, and the Czech Republic, and we're inviting local youth organizations and key regional/national policy making organizations to join us!

Our platform has been designed to help youth organizations measure the impact of their work and demonstrate the value they bring to their communities. Through our events, we want to engage with stakeholders at all levels and ensure that the platform is accessible and sustainable for years to come.

Each event will gather at least 30 participants and will take place at the end of the project. This will be the formal launch of the finished platform and e-course. Attendees will have the opportunity to attend short workshops and hear from keynote speakers about the importance of impact measurement in youth work. Plus, they'll get to see first-hand how the platform works and how it can be used to benefit young people at all levels.

Our goal is to establish links with EU policy level stakeholders and make a positive impact in our communities. That's why we're inviting local youth organizations and policy makers to join us for these events. Partners will also have the opportunity to promote the full range of project outputs to local youth work organizations.

We believe that by connecting stakeholders at all levels, we can ensure the long-term sustainability of the project and make a meaningful difference in the lives of young people.
