# YOUTHIMPACT+

PROMOTING QUALITY, INNOVATION,  
AND RECOGNITION OF YOUTH WORK

Erasmus+ Project Number: 2020-3-UK01-KA205-094370

The European Commission's support for the production of this publication does not constitute an endorsement of the contents, which reflect the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

## Goal

The YouthImpact+ project aims to promote the quality, innovation, and recognition of youth work, in line with the Youth Goals 2019-2027.

## Why Youth Impact+?

The project aims to increase and maintain the high quality of youth work throughout Europe. It aims to ensure that organisations and actors engaged in projects with young people are able to learn from each other by recognising and sharing the good practices of other European youth projects. The project aims to increase the quality of youth work, and improve their skills while strengthening the opportunities and quality of projects for the young people involved.

## Activity

The design and development of training content and web tools for operators and organisations involved in European youth projects.

## Resources

The project partners have been working in recent months on the useful content for the development of interactive resources:

- YouthImpact+ digital platform, as an interactive tool managed by the user, allows youth workers and youth project coordinators to quantify the social and environmental impacts of EU-funded projects and programmes;
- Training e-course YouthImpact+. The training will be an interactive course to learn how to properly use and integrate the tools and the YouthImpact+ digital platform in existing and future initiatives and youth projects.

## Impact

- Support 200 organisations across Europe, involved in the implementation of youth projects and initiatives, capacity-building processes and good practices regarding educational activities with young people.
- Facilitate participation and inclusiveness in EU-funded projects and programmes of 350 young people from disadvantaged backgrounds.
